

Chapter 25:

References

This chapter provides a listing of all the reference documents and other FRA consulted in the preparation of this EIS, including applicable laws and regulations guidance documents, reports, websites and databases, and other sources. The references FRA used are presented to correspond to the chapter of the DEIS and Draft Section 4(f) Evaluation where they were first referenced (the chapter references listed include any references from corresponding appendices). The stakeholders in the Proposed Action (WRY Tenant LLC, Amtrak, and MTA LIRR) developed the design criteria for the various project elements and provided design and construction information and assumptions for FRA's use to prepare the analyses in this EIS and Draft Section 4(f) Evaluation.
